November 16, 2021

Dear families, friends and community members,

Last year we were very fortunate to have had the use of the HUDL camera system to be able to broadcast our home basketball games via YouTube (WRS Athletics). Through your generous donations we were able to provide community access to our home basketball games (grades 5-12) when COVID restrictions did not allow anyone to be in our gym. Although this year we will be able to welcome guests to the gym, we understand that with surging positive COVID cases that this may not be something people will want or be able to do.

As a result, we would like to offer this online service again. We humbly request that those using the service or those that appreciate the ability to watch games at their leisure, donate towards its cost. Besides offering the viewer the ability to watch in the safety of their own home it also allows distant family members and those that cannot come in person the ability to still watch the games at a convenient time to them.

If you would like to contribute to our online system, please make checks payable to West Rutland School, 713 Main Street, West Rutland, VT 05777. Thank you in advance for your help and generosity. It is greatly appreciated!

In grateful appreciation,

Joseph Harrington, Associate Principal and Athletic Director
